

“NOT” A Winter Comfort List

If you did two or more of these things while in your house this winter season, chances are your home did not provide you the comfort it should.

1. Grab a blanket to stay warm
2. Plug in an electric heater
3. Put on extra thick socks
4. Cuddle up with a partner, not for the affection but, to stay warm
5. Cook a three course meal just so the oven would warm the kitchen
6. Heat was out, so you went into the cold night to check the oil level
7. Burnt the ends of your hair with hair dryer because it was keeping you warm
8. Avoided the downstairs bathroom because the seat was always too cold
9. Hate grocery shopping, but went three times a week to seek warm shelter
10. Stayed home from work to wait for a service technician to fix your heating system
11. Wiped the frost off the inside windows so you could see outside
12. Sleep wearing a hat, or turtleneck, or two layers of pants
13. Turned your thermostat above 75°, but the room temperature remained at 63°
14. Worked longer hours because you dreaded the idea of entering a cold house
15. Begged your fuel supplier to deliver because you forgot to call in the week before
16. A water pipe froze and you were stuck without water
17. Took a 22 second ice cold shower because the water heater shut down at night

Kosco is the area's leading home heating and comfort company. If you have personally performed some of the chilling events listed above call Kosco. Kosco can provide warm solutions to almost every home creating uncomfortably cold situations. In today's age of advanced heating services and equipment there is no reason for a home to be uncomfortably cold.
